Salvia Divinorum
Strength: 5x, this means that the extract is 5 times stronger than the normal Salvia Divinorum Sage herb.

Content: 1 gram

Hits: package contains 2 to 4 hits

Use: only if you are 18years or older! , do not use this product alone; use a "tripsitter"

Information:

Because of its special effects, Salvia Divinorum(Sage) is used as a recreational drug. With the use of Salvia a short but very strong and intense hallucinating trip can be experienced. The primary active substance in Salvia is Salvinorin-A

Salvia Divinorum can be used in two different ways, by smoking it or by drinking or chewing it. But first things first: sit or lie down before smoking and make sure that the "tripsitter"is present. Smoking Salvia is by far the most popular way of using Salvia Divinorum. The Salvia is smoked in a pure pipe or a waterpipe/bong. You cannot smoke Salvia in a cigarette or joint, this will not work!. In order to create the best possible Salvia-effect it is necessary to smoke Salvia pure and inhale the Salvia-smoke well with a maximum of 2 or 3 inhalations. Do not wait too long in between the inhalations. If the maximum amount of smoke is in your lungs, keep it atleast in the lungs for 20 seconds or longer. This is necessary to create the best Salvia effect. The Salvia effect can be felt directly and will last up to 15 minutes, but probably shorter.

It is very important that when you use Salvia the first few times, you don't take a too strong dose. We advise the 5x extract or the 10x extract. Not stronger. After a while, when you are a little bit more experienced, you will be able to smoke the 20x or stronger extracts. But be carefull, take it easy!!

Warnings:

a. Never use Salvia alone, make sure that always one sober person(tripsitter) is present

b. Use Salvia in a familiar and comfortable place where you won't be disturbed.

c. Sit down or lay down before using Salvia

d. Use a light dose the first few times, 5x or 10x, not stronger

e. Do not use Salvia with alcohol or other drugs

f. Only use Salvia if you feel ok, never use it when you feel mad, sad, depressed or in any way mentally instable.

g. Only use Salvia if you are 18 years or older

h. Do not combine with MAO-inhibitors
